

2022-2023 ANNUAL REPORT

Faces of Friendswood
HUNTER AND FISHER SMYRL

Mission

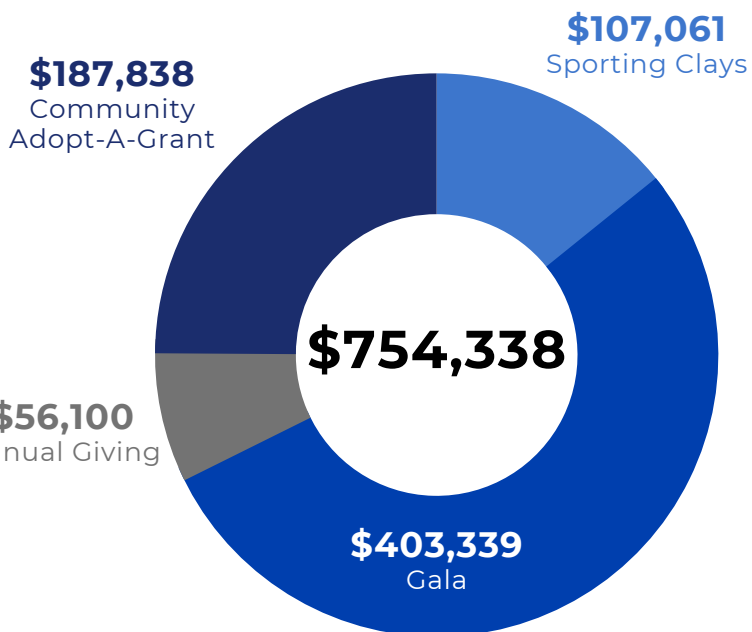

To support FISD and enhance student and teacher experiences by providing innovative and engaging learning opportunities.

Reach

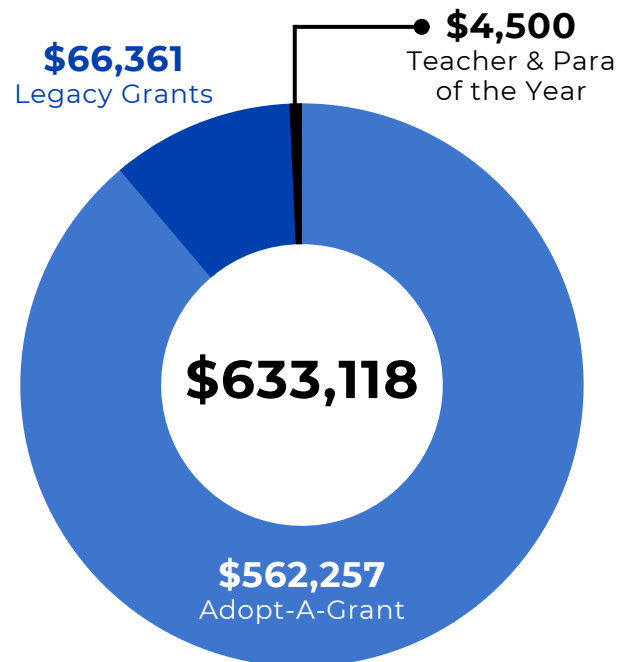

6,000+ Students
700+ Employees
6 Campuses

FINANCIALS

PRIMARY NET REVENUES

SUPPORT TO FISD

EMPOWERING EDUCATORS

New Employee Luncheon

With the support of the Friendswood community, FEF welcomed over 100 new employees to the Mustang family this year! Every new employee left with a door prize and the Foundation gave away two classroom grants to one new teacher and one mentor teacher. One highlight of the luncheon was the speaker panel of current teachers who inspired the new employees by sharing what innovation looks like in their classrooms and what mantras they cling to.

Teacher & Paraprofessional of The Year Awards

FEF awarded **\$500** to each of the campus Teachers of the Year and **\$250** to each of the campus Paraprofessionals of the Year. The Foundation also had the privilege of selecting the Elementary and Secondary Finalist to represent Fisd at the Region IV level.

SECONDARY FINALIST

ENGAGING COMMUNITY

Sporting Clays Tournament

Clays weren't the only thing shattered at the 2022 Sporting Clays Tournament! The Foundation raised a record-breaking \$107,061 and welcomed over 250 guests.

\$107,061 NETTED

61 TEAMS

676 RAFFLE TICKETS

"A Night at the Derby" Gala

FEF's 2023 Gala was "off to the races" with over 700 people in attendance. The Kentucky Derby-themed event netted a record-breaking \$400,000+ and showcased a 16' X 66' interactive grant display featuring the famous Twin Spires starting gates and jockeys designed by the FHS Art Department.

\$403,339 NETTED

714 GUESTS

141 RAFFLE TICKETS

LEGACY GRANTS

Pre and Present Ponies, Prance to New Pastures

Amount: \$5,524.46

Description: Our programs serve students with a variety of disabilities, including but not limited to autism, intellectual disabilities, and physical impairments. 3 of the 5 self-contained Special Education programs at Cline are under a year old! This grant will provide a variety of teaching materials to help get those programs the items they need to help students generalize skills, manage behavior, and help keep students engaged. This grant will provide a unique opportunity to enhance the education and outcomes of students with disabilities by providing them with the resources they need to achieve their full potential as learners.

Cooking in Culinary

Amount: \$14,652.67

Description: The purpose of this culinary grant is to supply our new state of the art professional kitchen with up-to-date equipment that our students will use for years to come. Our primary goals in selecting items for the grant centered on safety, durability, functionality and cost. A professional kitchen like the new one in FSD, will train our students so they can enter college, culinary school or the workforce with the most current knowledge of content in the field!

Ceramics Program

Amount: \$13,994.65

Description: The art department at FHS has focused primarily on two-dimensional work over the years, and giving students the opportunity to work with clay is a totally different expression of creativity. For many students, this form of art would be more freeing and give them more confidence than they would have with drawing something. The ceramics they create can be functional like bowls or cups, serve as decorative pieces to display, or be used as competition pieces. There are countless benefits to a ceramics program that align with our district goals!

Robotics Vex IQ Classroom

Amount: \$23,700.00

Description: Bring the excitement of competition to FJH Robotics classroom with STEM Games. Each Vex IQ Education Bundle contains everything we need, including configurable game fields and game objects. These fields assemble quickly in a variety of shapes and sizes, perfect for any classroom layout. Vex IQ Robotics STEM Games are seamlessly embedded into STEM Labs to challenge our students to apply their STEM learning in a friendly, fun, and challenging set of robot games.

Book Vending Machine

Amount: \$8,488.99

Description: Vending machines themselves are cool - but a vending machine that delivers a book into a kid's hand? Even cooler! I want to encourage readers by adding a little extra excitement to a school reward. Students will receive a vending machine token when they are recognized for exhibiting exemplary character traits we are focusing on as a school. Students will turn that token into the vending machine and select a book of their choice to take home and keep forever!
